

JEEWON LEE

Data Science Fellow at Galvanize

jee.won.lee@hotmail.com

Experience

Actuarial Analyst at Segal Consulting

March 2013 - June 2016 (3 years 4 months)

- Performed actuarial valuations for multiemployer and public sector pension plans
- Reconciled participant data, analyze data trends and patterns, evaluated significant data issues and communicated with actuary and client as necessary to resolve and finalize data
- Programed liability software and reviewed test lives for valuation assumptions, data verification and plan provisions
- Performed special projects such as benefit calculations (QDRO, Early/Late Retirement), withdrawal liability calculations, experience studies and forecasts
- Assisted with valuation report preparation and government filings
- Constructed and edit Excel spreadsheets for calculating valuation results and custom benefit
- Maintained high quality standards for projects through strong organizational and documentation skills. Managed and coordinated project tasks and schedule with team members to deliver products in timely manner

Business Assistant at KSM

December 2012 - March 2013 (4 months)

- Tracked delivery performance of completed orders to customer base in USA and Europe
- Kept track of financial standing within supplier base (Accounts Payable)
- Created purchase orders and kept the suppliers base list up to date
- Researched and contact potential suppliers to request for quote of an assembly build

Actuarial Intern (Benefit Consulting) at Towers Watson

November 2010 - December 2010 (2 months)

- Supported consultants to provide actuarial valuation reports and special projects
- Assisted consultants in preparing proposals and client presentations
- Updated client database and provide market research
